Live ID check can be done on any device with a camera, e.g. computer, laptop, tablet or phone

Instructions to do a Live ID on Xavier

The first check you will do when logging onto Xavier is a Live ID

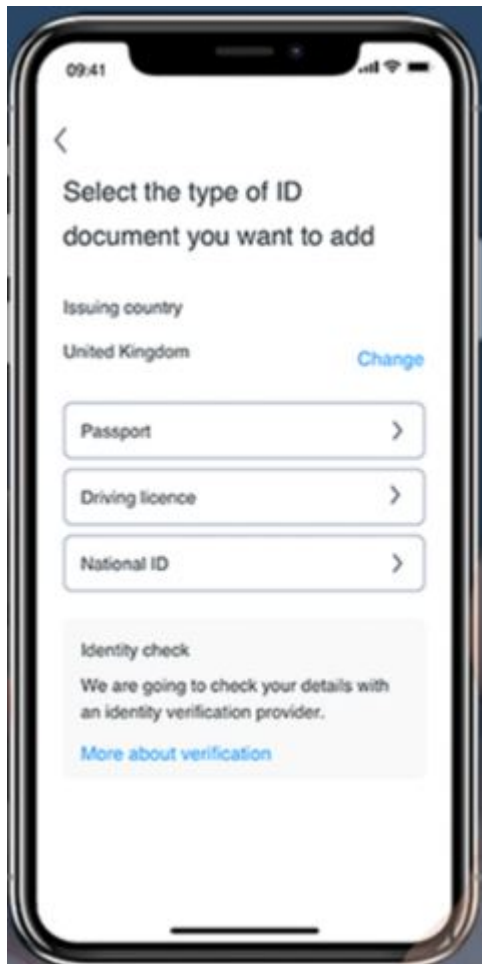

- [Step 1:](#) Allow Xavier the permission to access the camera
- [Step 2:](#) Select the ID you will be using
- [Step 3:](#) Ensure the ID is in focus
- Step 4: Frame your face

Step 1: Allow Xavier the permission to access the camera

- When you click on the Live ID section Xavier will bring up a pop up box asking permission to access your camera on the device
- You need to allow the permission to be able to do the check

Step 2: Select the ID you will be using

- You will be asked to select which ID you will be using from a list of options available based on which country your ID is from

Step 3: Ensure the ID is in focus

- You will be asked to make sure the ID is in focus and that you can read all the text clearly on the image

Step 4: Frame your face

- You will be asked to frame your face in the oval

Note

You will need to move closer to the camera as the frame becomes larger
