What are the three levels of DBS check?

Ramya Sehmi - 2026-11-04 - Comments (0) - Encyclopedia of screening terms

The three levels of DBS check are Basic, Standard and Enhanced. A Basic check shows unspent convictions only. A Standard check shows both spent and unspent convictions, cautions, reprimands and warnings. An Enhanced check includes everything in a Standard check plus any additional information held by local police that's reasonably considered relevant to the role.
