## What are the three levels of DBS check?

Ramya Sehmi - 2026-05-08 - [Comments \(0\)](#) - [Encyclopedia of screening terms](#)

The three levels of DBS check are Basic, Standard and Enhanced. A Basic check shows unspent convictions only. A Standard check shows both spent and unspent convictions, cautions, reprimands and warnings. An Enhanced check includes everything in a Standard check plus any additional information held by local police that's reasonably considered relevant to the role.
